

This is list of vendors that offer software and IT solutions to assist Law Enforcement Agencies (LEAs) with setting up and maintaining systems for reporting NIBRS data to the Uniform Crime Reporting (UCR) bureau within Nevada DPS.

- In order for a vendor to be added to this listing, they must be working with a Nevada LEA to submit data to Nevada DPS and pass the NIBRS Certification process.
- LEAs can select any vendor they choose, including ones not appearing on the listing. New vendors will need to pass the certification process, in order for LEAs to submit NIBRS data.
- Vendors will be removed from the listing, if they have not actively been working with any LEA to submit NIBRS data to Nevada DPS for a period of more than 6 months.

Inclusion of a vendor on this UCR listing does not expressly imply the vendor solution or the LEA is CJIS compliant. This vendor listing solely indicates the solution meets the appropriate formatting to adhere to Incident-Based Reporting technical requirements for UCR submissions. For questions relating to the technical and security controls involving CJIS compliance, please refer to our CJIS Technical Audit Team for assistance. For more information regarding NIBRS certification or to begin submitting NIBRS data, LEAs should contact the UCR program.
