What is NIBRS?

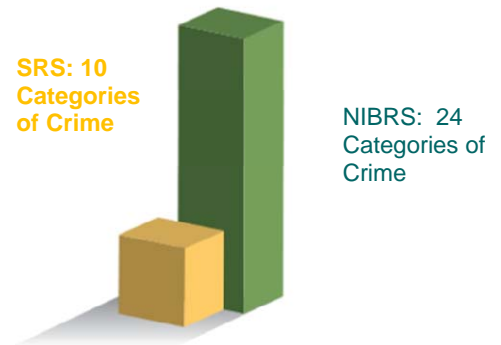

National Incident-Based Reporting System (NIBRS)

System for recording crimes known to law enforcement and arrests.

Differs from the traditional Summary Reporting System (SRS) in the following significant ways:

- ◆ SRS collects monthly counts by 10 categories
- ◆ NIBRS expands on the ten Index Crimes to 24 Group A categories of (52) offenses
- ◆ NIBRS was designed to collect detailed information in addition to counts of crimes and arrests
- ◆ NIBRS collects detailed list of all offenses that occurred in the incident, not just the most serious offense
